

(vi) Stop TB Partnership (STP). HDT provides the secretariat to the Tanzania Stop TB Partnership which aims to bring together Government, Development Partners, Private Sectors, and Non-Governmental Organizations to end TB by 2030. STP Global is a United Nations-hosted organization that takes bold and smart steps to serve the needs and amplify the voices of the people, communities, and countries affected by TB to secure meaningful change, among other strategies, through strategic advocacy and communications. In Tanzania, Through HDT, the Stop TB Partnership coordinates TB partners' efforts under the guidance of the Ministry of Health / National Tuberculosis and Leprosy Program and Prime Minister's Office.

1. About HDT

Health Promotion Tanzania (HDT) is a local NGO established in 2004 with the purpose of supporting efforts to improve the health and development of the people in Tanzania. Since its inception, HDT has designed and implemented various projects such as poverty reduction interventions, epidemics like HIV and AIDS and tuberculosis (TB); improvement of reproductive and maternal health for Women of reproductive age. We have also worked on Adolescent Youth Reproductive Health Education and child health. We have built the capacity of the community-based organization and M DAs. We have conducted an analysis of various reports and developed policy papers for advocacy purposes.

We work with Government at the National, Regional, and District levels, the Parliament of Tanzania through standing committees, and other Non-Governmental Organizations either as a secretariat or part of the network.

Our permanent head Office is in Kisota Area, Kigamboni Municipal Council, Dar es Salaam. Regional offices as of January 2023 are in Geita, Manyara, and Dodoma. Remotely we work in Kigoma. The supreme body is the Board of Directors and Senior Management Team is headed by 20 years experienced Executive Director

2. Our Vision

A responsible and Healthy society

3. Our Mission

To use Result based – human centered approaches to design and implement innovative Community and national level-based health related interventions that impact on maternal, newborn, child health and youth

4. Implemented Projects: 2022 - 2023

Currently, HDT is implementing the following projects

(i) **USAID/Afya Yangu – Northern Zone** in the regions of Dodoma and Manyara to apply Human Centered Design to increase utilization of HIV, TB and Family Planning Services. Under the leadership of (EGPAF), we partner with Matchboxology, a South African-based communication organization to implement this.

(ii) **USAID/Afya Yangu – Lake Zone** in Geita region with the main objective of improving the reproductive and maternal health of women and adolescents as well as the health of newborns. The project also seeks to improve the enabling environment for the availability and accessibility of such services. In this project, HDT collaborates with JHPIEGO

(iii) **An Evaluation of the Maternal and Reproductive Health project** in Kigoma region with the main goal of assessing the sustainability of health services and systems that support the provision of quality Maternal Health Services. We are working in partnership with the Center for Disease Control Foundation (CDC).

(iv) **ACTION Global Advocacy Partnership.** This is a global public health partnership of 13 local NGOs around the globe. It aims to contribute to the reduction of disease of poverty and influence global financing architecture in public health. We influence the financing and performance of GFATM, WB, IMF and GFF.

(v) **Global Financing Facility for RMNCAH** with the main goal of reducing maternal death, helping babies to thrive and general improvement of health infrastructure. As secretariat to GFF-CSOs, we support MoH with analysis of RMNCAH Score card, policy brief development and advocacy. We coordinate CSOs and engaging with WB and Government at country level.
