

Project Name: Optimizing the Global Financing Facility (GFF) Financing Architecture for Delivery of Reproductive Health Supplies in the Global South (HENNETH)

Project Focus

Health Promotion Tanzania(HDT) in partnering with HENNET is focusing on closing the gaps and increase access to the full range of affordable and quality reproductive health commodities in national and sub-regional level in Tanzania

The main goals of the project is to mobilize and sustain effective advocacy to ensure inclusion of reproductive health supplies in the GFF financing mechanism, addressing policy barriers and increase political visibility at national and sub-national levels.

Project Objectives

- 1.To Build and expand stakeholder's knowledge on greater reproductive health products availability, quality and choice
- 2.To improve the quality of RH suppliers in Tanzania through stakeholders and consumer's actions
- 3.To support the institutionalization of reproductive health supplies availability, quality, equity and choice of reproductive health suppliers in health system in Tanzania through engagement in budget process and social accountability.

Project Expected Outcomes

- 1.Civil Society Organizations' capacity built on reproductive health supplies.
- 2.Engaging Civil Society Organizations in advocacy and inclusion of reproductive health supplies in Global Financing facility mechanism
- 3.Addressing policy barriers and enhancing political visibility on RH supplies nation and sub national level

Donor: HENNET/RHS Coalition
